

## Press Release

### HANA and ADMIN 2017 conference in Amsterdam

---

**WUERZBURG, Germany, 3/22/2017** – Heiko Hecht of IBIS Prof. Thome AG is proud to announce that he will be presenting at the upcoming SAPinsider **HANA** and **ADMIN** 2017 conference to offer proven advice to attendees. The event takes place **14-16 June at the RAI Convention Center in Amsterdam**. Attend to get best-in-class approaches and perspectives from leading consultants, industry trends from analysts, lessons learned from customers, and product updates and road map details directly from SAP.

HANA 2017 is an annual collaboration of SAP and SAPinsider, and is the definitive conference for organisations evaluating, implementing, and optimising SAP HANA® to accelerate business processes, drive advanced analytics, and simplify IT. This year's must-attend event is packed with in-depth sessions, live product demos, and interactive forums showcasing the latest updates and best practices for SAP HANA solutions.

View the full agenda as well as receive a special discount off the on-site registration price by visiting [www.HANA2017.com/Hecht](http://www.HANA2017.com/Hecht) or by calling +1-781-751-8700.

#### About IBIS Prof. Thome AG

Our aim is to align business objectives with information technology – to implement state-of-the-art advancements from the fields of business administration and information processing. Ongoing innovation and evolution involved in all aspects of the process is not just the challenge we and our customers commit to; it is also what enables us to generate competitive advantages – today and tomorrow. Our portfolio ranges from the core responsibilities of classic Enterprise Resource Planning to the utilization of cutting-edge cloud systems.

For well over twenty years, IBIS Prof. Thome AG has been creating trend-setting solutions for customers and partners like Atos, HPE, PwC and SAP. Innovations have included intelligent tools and rule-based analyses, such as Reverse Business Engineering technology, to pinpoint real system usage and untapped synergetic potential.
